Special events

DAY 1: February, 14th

Venue: Spółdzielnia Ogniw, 28 Paulińska St.

19.00-22.00 Social event for conference participants: **Queer Voices from Here and There: Makeout & Strefa Wenus z Milo**

Finger food will be provided.

Strefa Wenus z Milo is an association founded by and for women with disabilities. It is an association with disability rights, feminist and queer agenda. We started the organization because we want our voice to be heard and our capabilities and needs to be recognized. We are opposed to an authoritarian way of making decisions on the matters that affect us. That is why we decided to take matters into our own hands and start working being guided by the principle "Nothing about us without us". We do not want people to pity us because very often this attitude leads to inappropriate solutions. We want to be treated as partners in action, not as subjects of care. We want to be recognized as citizens who, like the rest of society, have the right to development, self-determination, and independence. We are self-organizing since 2014, we speak and educate on the intersections of disability, feminism and queer issues and also take our claims to the streets - we organize and do take part in manifestations for disability rights, anti-violence, feminist and reproductive rights protests (e.g. women strike) as well as Prides and Equality Marches. We want women with disabilities to be heard.

fb: <https://www.facebook.com/StowarzyszenieStrefaWenusZMilo/>

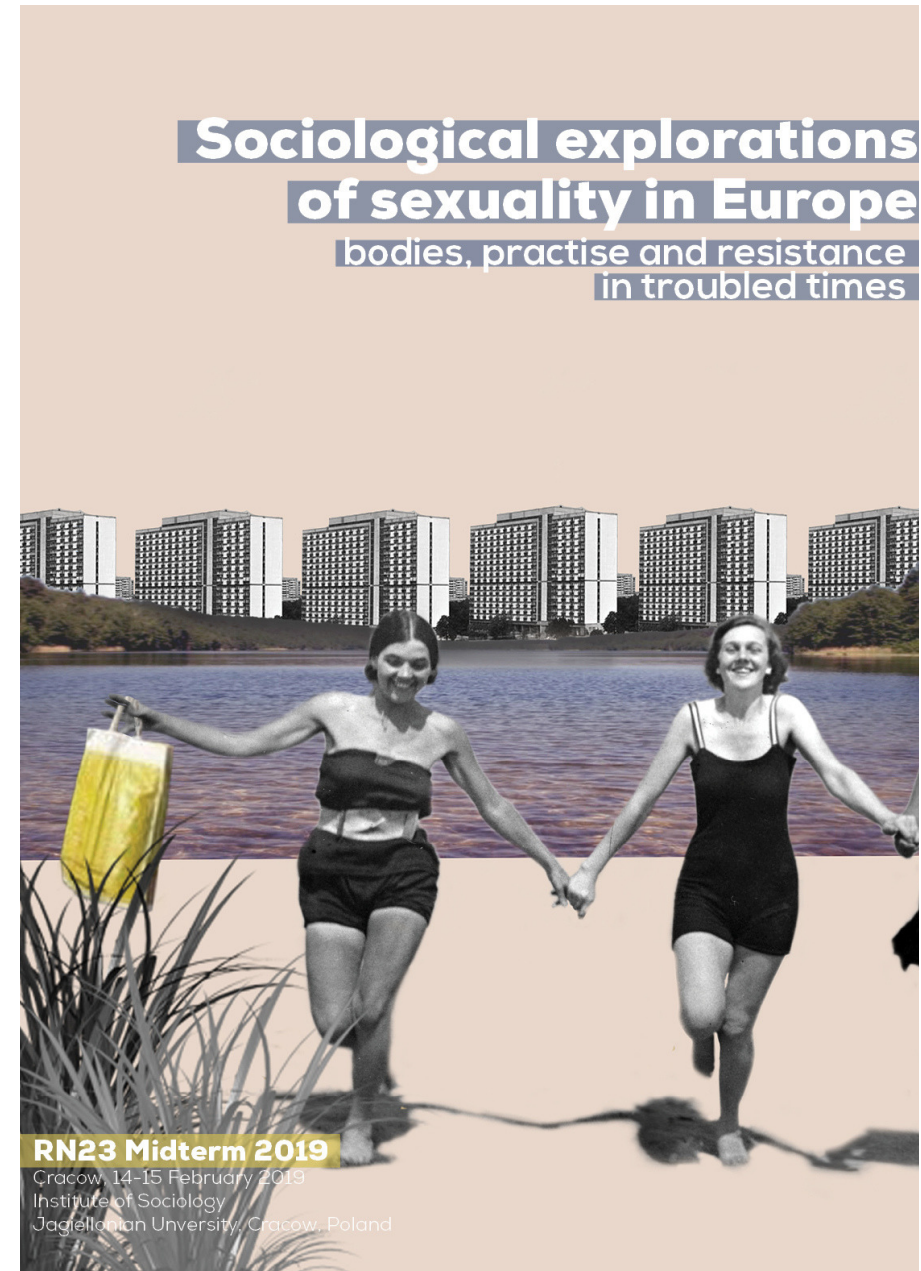

MAKEOUT is a Belarusian feminist anti-discriminatory project on gender and sexuality that seeks to heighten the awareness, promote mindfulness, and strengthen the LGBTQ-community and other vulnerable groups, which face sexual and gender identity discrimination. We collect and archive the history of the LGBTQ life in Belarus, document personal experiences of self-identification, create a space where we can be ourselves. During the event we will show the 1st Belarus LGBT documentary "They still smile" (2002). The atmosphere of the beginning of the 2000s is conveyed in this short film. You can see archive records of the International Conference "Lesbian movement" (Minsk, 8-9 March 2002), as well as interviews with members of the LGBT movement of those years in Belarus. We propose a discussion after the screening, where we can share our experiences as MAKEOUT and LGBTQ activists in Belarus and speak about the present context with LGBTQ issues in Belarus.

February, 16th

Venue: Massolit cooks, 25 Józefa St. (Kazimierz)

10.00-12.00 Community breakfast

We invite all conference participants to join the community breakfast during which we will talk, eat and laugh together.
